

## Authorization Basis Amendment Request

Page 1 of 1

ABAR Title: Identification of an Implementing Standard for Conduct of Operations

ABAR #: ABAR-W375-00-00008 Revision: 0 Associated ABCN #: ABCN-W375-00-00013

Originator: Todd Allen Date: 3/28/00  
Print Name

Description of proposed revision:

This change revises the implementing standards from various sections of the ISMP to a newly developed ad hoc standard for safety criteria 7.0-1, 7.0-3, 7.5-1, and 7.5-2.

Reason(s) for the proposed revision:

This ABAR is part of an ongoing effort to remove the ISMP as implementing standards for the SRD. The goal is to either identify appropriate consensus standards or locate ad hoc standards in the SRD, with the intent of simplifying the authorization basis maintenance process in the future.

Description of the proposed implementation schedule:

The standard will be incorporated into the SRD within 30 days of receipt of RU approval.

If the revision involves the deletion or modification of a standard previously identified in the approved SRD, provide:

- A. An evaluation that demonstrates the revised SRD continues to identify a set of standards that will provide adequate safety, comply with all applicable laws and regulations, and conform to top-level safety standards; and
- B. A certification that the revised SRD identifies a set of standards that continues to provide adequate safety, comply with all applicable laws and regulations, and conform to top-level safety standards.

Attachments:

- 1. Copies of the AB document(s) or appropriate excerpt showing the proposed revision(s).
- 2. Copy of safety evaluation.
- 3. If not included above, justification for the revision and demonstration that the revision is safe.
- 4. Items A and B above, if applicable.
